## IS RIGHT FOR YOU!

### HYDRATION

Hydration is key and Kangen Water® provides ultimate hydration for your whole body. Eight glasses of Kangen Water® daily is all you need to keep your body working properly.

### MINERAL-RICH

Kangen Water® is rich in calcium, sodium, potassium, and magnesium. These minerals provide your body with the boost you need to function throughout your day. Reverse osmosis is a water-filtering process that strips away all minerals, whereas Enagic® water-ionizing machines utilize a selective-filtration process which leaves behind the beneficial minerals.

### ALKALINITY

Kangen Water® is slightly alkaline, with a pH level of 8.5 - 9.5. Enagic's certified, innovative technology uses electrolysis to generate all the alkaline drinking water you'll ever need (along with 4 other waters). Start nourishing your body today with clean, alkaline water.

# BE GREEN, BE BEAUTIFUL!

Now, that we've eliminated the chemicals from your cleaning routine, it's time to discuss skin and hair care. Beauty products tend to have a long list of unpronounceable ingredients that are not necessarily good for you.

## THE TRUTH ABOUT BEAUTY PRODUCTS

The Environmental Working Group (EWG) has reported that the United States Food and Drug Administration has not evaluated almost 90% of all skin care and beauty products on the US market. Meanwhile, most skin care products contain petrochemicals, synthetic fragrances, parabens (chemical preservatives), and chemical fillers.

Also, a lot of the chemicals don't dissolve on your skin. Synthetic chemicals are rinsed down the drain, eventually finding their way to our natural water sources. This pollution is harmful to our environment and can be so easily prevented!

BE GOOD TO YOUR BODY You DON'T have to settle for AND YOUR BUDGET! chemical-laden, personal-care Natural beauty products are products and you DON'T have so important for you and to pay ridiculous amounts of the Earth.
